Subj: Renewal order of MPLS-VPN Network with MNS for 21 nos. locations under WBSEDCL.

Ref: Previous LoA placed on Your vide Memo No.- WBSEDCL/IT&C/6.10/522 dated 19/08/2015 and PO No. 5100043838 dated 12/06/2015.

Dear Sir,

With Reference to the above, WBSEDCL is pleased to place this renewal Letter of Award (LoA) for MNS over Establishment of Managed Multi Protocol Label Switching (MPLS) – Virtual Private Network (VPN) Connectivity for different Site Offices of WBSEDCL within the state of West Bengal as per Scope of Work and Terms and Conditions as detailed below.

• Scope of Work :-

Establishment of MPLS-VPN Links :

1. You shall provide 21 nos. 2 Mbps Managed MPLS-VPN links to the different offices as per Annexure -I enclosed
2. The entire project shall be executed on TURN KEY concept. Network Connection shall be provided through either Ethernet Port or V.35, as per availability.
3. Presently Private Class A range of IP for DC/DR and remote branch office LAN networks. These WBSEDCL networks over their MPLS backbone shall be advertised without any change in WBSEDCL network.
4. You shall use the private class B range for the WAN IPs for WBSEDCL MPLS connections in a manner that it shall not clash with the existing setup.

5. At no point of time the traffic of the utility will be moving out of the country for monitoring or any other purpose.
6. The managed MPLS-VPN Network shall be provided in mesh topology.
7. 24*7 NMS support with one personnel from your end should be posted at Vidyan Bhawan for daily monitoring and docketing during any fault of MPLS-VPN link.
8. Maintenance of the above communication links shall be as per SLA already signed between WBSEDCL & BSNL against the LOA No.: IT&C/6.10/2831 dated 13/03/2010.

• **Terms & Conditions:-**

Dear Sir / Madam,
With Reference to above, WBSEDCL is pleased to place this Letter of Award (LOA) on you for Establishment and/or providing of Managed Multi Protocol Label Switching (MPLS) # Virtual Private Network (VPN) Connectivity for different Site Offices of WBSEDCL within the state of West Bengal as per Scope of Work and Terms and Conditions as detailed below.

Scope of Work :-

A. Establishment of MPLS-VPN Links :

1. Establishment of:

- I. 30 Mbps MPLS-VPN for Data Centre.
- II. 30 Mbps MPLS-VPN for Disaster Recovery Centre.
- III. 2 Mbps MPLS-VPN for Remote Offices.
- IV. 15 Mbps Internet Bandwidth for Data Centre.
- V. 15 Mbps Internet Bandwidth for Disaster Recovery Centre.

1. Network Connection shall be provided through either Ethernet Port or V.35, as per availability.

2. In different site locations BSNL MPLS-VPN link already exists. In some important offices dual links from BSNL and Vodafone have been provided. BGP configuration is already done for the offices where dual links are commissioned. BGP configuration is required for all the site locations where MPLS-VPN link will be provided. The current MPLS-VPN links of WBSEDCL network are working with a common BGP AS (Autonomous System) for the MPLS cloud. You

shall use the same BGP AS number.

3. Presently Private Class A range of IP for DC/DR and remote branch office LAN networks. These WBSEDCL networks over their MPLS backbone shall be advertised without any change in WBSEDCL network.

4. You shall use the private class B range for the WAN IPs for WBSEDCL MPLS connections in a manner that it shall not clash with the existing setup.

5. Whenever converging bandwidth reaches the threshold limit of bandwidth presently provided at Data Centre/ Data Recovery centre/Zonal computer centers/ and Branches, necessary up-gradation of bandwidth at these centers shall be provided by you.

6. It is to be ensured that the Backbone and bandwidth including the last mile is not through BSNL links as the total redundancy is required.

7. At no point of time the traffic of the utility will be moving out of the country for monitoring or any other purpose.

8. The managed MPLS-VPN Network shall be provided in mesh topology.

9. 24*7 NMS support with one personnel from your end should be posted at Vidyut Bhavan for daily monitoring and docketing during any fault of MPLS-VPN link.

quantity may increase or decrease +/- 50% vide references GCC.6, new separate LoA will be placed with same price and terms and conditions after getting the feasibility confirmation from your side for each of such sites. The completion time will be 45 days from the date of issuance of LoA. Here the certificate of successful commissioning and completion of job will be issued only after successful commissioning of all the links given in the said LoA as a lot. However any way leave related problem with landlord at the site offices (justified with suitable papers) will be treated as dispute and will not be counted or considered during consideration of successful commissioning of the lot of links of the LoA.

(iii) For new MPLS-VPN and ILL connection if you cannot complete the total execution work within the stipulated execution period, then WBSEDCL shall have every right to place the order for execution of the unfinished portion of the work to the any other vendor.

GCC.10. Liquidated damage:

In case of new connectivity, the timely completion of entire project including handing over the sites to WBSEDCL as per "Execution Period" is the basic consideration and essence of the contract and WBSEDCL reserves the right to repudiate the contract if you fails to complete the work within stipulated period for completion. However, the ordering authority may at his discretion waive this condition with imposition of liquidated damage indicated herein below.

GCC.10.1. Delay in implementation of the project for managed MPLS-VPN Network: If you fail to complete the work within the completion time as stated in the Clause of "Execution Period", a L.D. at the rate of 1/3% of the value of unfinished portion per week of delay or part thereof subject to a maximum of 10% of value of the unfinished portion of the scheme shall be imposed on the party. As it is a turn-key project & mere provision of links cannot be construed as completion of work, hence for the purpose of this clause, work will be treated as finished for a particular location only when successful commissioning, trial run and handover-takeover of the MPLS-VPN connectivity is complete. Otherwise the total value of work for that particular location will be treated as unfinished and L.D. will be calculated on the total value of that unfinished portion of that location. L.D. if applicable will be deducted only from bills on 1st year rental charge.

GCC.10.2. Liquidated Damage, if applicable during warranty period, will be recovered from any outstanding bills / bank guarantee lying / to be lying with WBSEDCL.

GCC.11. Force Majeure:

You shall be under no liability if you are prevented from carrying out any of yours obligations by reason of war, invasion, and act of foreign country, hostilities, riots, civil commotion, mutiny, accident, earthquake, fires, floods, orders and / or restrictions and other cause beyond the reasonable control of you. However, such force majeure circumstances are to be intimated immediately and to be established subsequently with proper documents / proofs to the entire satisfaction of WBSEDCL. WBSEDCL will not take any additional liability towards enhanced taxes, duties

and price variation due to force majeure condition.

GCC.12. Risk Purchase / Performance:

Adherence to time schedules mentioned in the foregoing clauses shall be deemed as the essence of contract and if you fail to deliver within the periods prescribed for such work in the rate contract order, WBSEDCL shall be entitled to execute the job through the best and nearest substitute available elsewhere on the account and at the risk of yours or to cancel the contract and you shall be liable to compensate for any loss or damage which WBSEDCL may sustain by reason of such failure on the part of the Contracting Agency.

GCC.13. Conflict of Interest :

Neither M/s Tata Communications Limited nor any of their personnel shall engage in any personal, business or professional activity which conflicts or could conflict with any of their obligation in relation with this project.

GCC.14. Technical Parameter Clause for Network :

You shall provide MPLS-VPN links as per the technical parameters described below:

Sl No	Name of the Parameter	Details
1	Uptime	Up to 99.5%
2	Latency	<= 80 ms
3	Packet loss	<= 1%
4	Basis of Calculation	Per Month
5	Service Window	24 X 7 (Except national Holidays)
7	Rebate for downtime	For every 05 hours in excess of 11 hours in a quarter a rebate of 0.5% of the rental of the circuit per quarter.
8	Rebate for latency / Packet loss	If NSP (Network Service Provider) fails to meet the Technical Parameters for Latency / Packet loss for a continuous period of 30 minutes, then the customer's account shall be credited on prorata basis by a credit equal to 5 times the outage period.
9	Upper Limit of rebate	Rental for that location.

GCC.15. Terms of Payment:

GCC.15.1. For 1st year : 100% of yearly rental charges will be paid in advance against advance bill on submission of 110% of Performance Bank

You shall be under no liability if you are prevented from carrying out any of your obligations by reason of war, invasion, and act of foreign country, hostilities, riots, civil commotion, mutiny, accident, earthquake, fires, floods, orders and / or restrictions and other cause beyond the reasonable control of you. However, such force majeure circumstances are to be intimated immediately and to be established subsequently with proper documents / proofs to the entire satisfaction of WBSEDCL.

WBSEDCL will not take any additional liability towards enhanced taxes, duties and price variation due to force majeure condition.

GCC.12. Risk Purchase / Performance:

Adherence to time schedules mentioned in the foregoing clauses shall be deemed as the essence of contract and if you fail to deliver within the periods prescribed for such work in the rate contract order, WBSEDCL shall be entitled to execute the job through the best and nearest substitute available elsewhere on the account and at the risk of yours or to cancel the contract and you shall be liable to compensate for any loss or damage which WBSEDCL may sustain by reason of such failure on the part of the Contracting Agency.

GCC.13. Conflict of Interest :

Neither M/s Vodafone Mobile Services Limited nor any of their personnel shall engage in any personal, business or professional activity which conflicts or could conflict with any of their obligation in relation with this project.

GCC.14. Technical Parameter Clause for Network :

You shall provide MPLS-VPN links as per the technical parameters described below:

<u>Sl. No.</u>	<u>Name of the Parameter</u>	<u>Details</u>
1	Uptime	Up to 99.5%
2	Latency	≤ 80 ms
3	Packet loss	≤ 1%
4	Basis of Calculation	Per Month
5	Service Window	24 X 7 (Except national Holidays)
7	Rebate for downtime	For every 05 hours in excess of 11 hours in a quarter a rebate of 0.5% of the rental of the circuit per quarter.
8	Rebate for latency / Packet loss.	If NSP (Network Service Provider) fails to meet the Technical Parameters for Latency / Packet loss for a continuous period of 30 minutes, then the customer's account shall be credited on prorata basis by a credit equal to 5 times the outage period.
9	Upper Limit of rebate	Rental for that location.

GCC.15. Terms of Payment:

- GCC.15.1. For 1st year : 100% of yearly rental charges will be paid in advance against advance bill on submission of 110% of Performance Bank Guarantee.
- GCC.15.2. For subsequent year : Yearly rental charges for next year will be made also in advance on raising of bills after deduction of NMS generated downtime of previous year as per SLA against this LoA.
- GCC.15.3. Year wise and link wise NMS generated downtime report is to be submitted by you to WBSEDCL for calculation.
- GCC.15.4. All the bills in triplicate with relevant papers, documents are to be submitted to the Controlling Officer at IT & C Cell for payment.
- GCC.15.5. The commissioning certificate of newly commissioned MPLS-VPN link signed by controlling officer should be provided along with bill.
- GCC.15.6. If you fail to submit normal rent bills of MPLS-VPN links prior to two months of expiry of BG in consideration to the validity and claim period of the BG, the said BG shall be invoked by WBSEDCL without further reference.

GCC.16. Way Leave (ROW) :

You shall arrange the necessary way leave for installation of any equipment/antenna etc. in the offices located at hired premises. It shall be the responsibility of the vendor to arrange way leave/ROW (Right of Way) for installation of their equipment/antenna in connection to establishment of the links. WBSEDCL shall neither negotiate with the owner of land/hired premises nor incur any additional charges toward obtaining way leave (ROW) permission whatsoever. However WBSEDCL provide necessary help toward acquiring permission from the owner of the land/rented house as and when required.

GCC.17. Change of Location after commissioning of Link :

The MPLS-VPN links which are to be established at different site offices may liable to shift in the neighboring locations within the town itself due to change of address of those locations during the course of the time. Such shifting shall be made by the vendor as and when required during the contract period as per the rate described against the shifting of locations at the price bid (Annexure – II).

GCC.18. Acceptance of LOA:

You shall submit written unconditional acceptance of this LOA within 15 (fifteen) days from date of issuance of the award. In case of non-compliance, WBSEDCL reserves the right to cancel the LOA placed on you.

GCC.19. Communication:

For communicating with WBSEDCL, for this job may use the following modes.
FAX- (033) 2337 2427.

Dear Sirs,

With Reference to above, WBSEDCL is pleased to place this Letter of Award (LOA) on you for Establishment of Managed Multi Protocol Label Switching (MPLS) – Virtual Private Network (VPN) Connectivity for different Site Offices of WBSEDCL within the state of West Bengal as per Scope of Work and Terms and Conditions as detailed below.

• **Scope of Work :-**

A. Establishment of MPLS-VPN Links :

1. You shall provide following Managed MPLS-VPN links to the different offices as per Annexure –I enclosed
 - (i) 362 nos. 2 Mbps managed MPLS –VPN links to the different branch offices throughout West Bengal State.
 - (ii) 6 nos., 10 Mbps managed MPLS-VPN links are at Kolkata, Baharampur, Burdwan, Midnapore and Siliguri Zonal Computer Centers and Vidyut Bhavan (H.Q.).
 - (iii) 2 nos. 50 Mbps managed MPLS-VPN links to DC and DRC located at New Town, Rajarhat and Baharampur respectively. Before effecting the connectivity at DRC, Baharampur you shall obtain necessary clearance from the IT&C Cell.

2. Network Connection shall be provided through either Ethernet Port or V.35, as per availability.
3. In different site locations BSNL MPLS-VPN link already exists. In some important offices dual links from BSNL and TTSL have been provided. BGP configuration is already done for the offices where dual links are commissioned. BGP configuration is required for all the site locations where MPLS-VPN link will be provided. The current MPLS – VPN links of WBSEDCL network are working with a common BGP AS (Autonomous System) for the MPLS cloud. You shall use the same BGP AS number.
4. Presently Private Class A range of TCP/IP for DC/DR and remote branch office LAN networks. These WBSEDCL networks over their MPLS backbone shall be advertised without any change in WBSEDCL network.
5. You shall use the private class B range for the WAN IPs for WBSEDCL MPLS connections in a manner that it shall not clash with the existing setup.
6. Whenever converging bandwidth reaches the threshold limit of bandwidth presently provided at Data Centre/ Data Recovery centre/Zonal computer centers/ and Branches, necessary up-gradation of bandwidth at these centers shall be provided by you.
7. It is to be ensured that the Backbone and bandwidth including the last mile is not through BSNL/TTSL links as the total redundancy is required.
8. At no point of time the traffic of the utility will be moving out of the country for monitoring or any other purpose
9. The managed MPLS-VPN Network shall be provided in mesh topology.
10. Liaison with M/s Wipro Limited for delivery and commissioning of routers, Ethernet cards, Memory cards and upgrade of routers as per aforesaid LOA is being placed on M/s Wipro Limited. The delivery of items ordered on M/s Wipro Limited shall be executed on phased manner as per priority list provided/ to provided to you.

B. Supply, Delivery, Installation and Commissioning of New Routers and Upgrading of Existing Routers:

In your bid document it has been recommended that M/s Wipro Limited would be your implementation partner in reference to the Clause No. GCC1.12 as noted as Sr. No. 4 of our amendment of NIT vide reference No. WBSEDCL/IT&C/6.10/1977 dated 17.07.2013. Subsequently vide your letter dtd. 29.07.2013, you confirmed that necessary order for supply, delivery, install and Commission 108 numbers new Routers (Annexure – II), upgrading of memory cards for existing 148 routers and IOS for existing 159 nos routers, delivery of 50 (fifty) numbers Ethernet cards as per Annexure-I would be placed on M/s Wipro Limited as per your tender documents. The specifications of new routers, Valrack Racks are enclosed as Annexure –III.

Accordingly a separate order on M/s Wipro Limited is being placed for aforesaid work.

You shall take all necessary action for timely delivery of new routers, ethernet cards, upgrading of existing routers by M/s Wipro Limited so that schedule for establishment of MPLS-VPN links shall maintain.

Delay in execution of work by M/s Wipro Limited for whatsoever reason shall not be the cause for delay of establishment of MPLS-VPN by you and LD as per LD clause mentioned elsewhere in this LOA may be imposed.

As SLA parameters indicated in the clause no GCC 13.2 of this LOA dependent partially on the performance of routers under the LOA which is being placed on M/s Wipro Limited, you shall take all necessary measures and monitor the rectification of faults of routers.

• **TERMS & CONDITIONS:-**

GCC.3. **Cancellation/Termination of Order:** WBSEDCL shall have the right to repudiate the contract if the work is not completed within schedule completion time as per "Execution Period" Clause. The following causes may also lead to cancellation of LOA.

GCC.3.1. Non acceptance of LOA as per "Acceptance" clause.

GCC.3.2. Non submission of Performance BG within time.

GCC.3.3. If failed to implement the project.

GCC.3.4. In above cases 15 days termination notice shall be issued prior to termination of LOA.

GCC.4. **Performance Guarantee :**

GCC.4.1 **During Warranty Period for the supplied materials / equipments:**

GCC.4.1.1. An amount of 110% of total sum of 100% of yearly rent including 100% tax and duties shall be the Bank Guarantee with validity period one (1) year and six (6) months and claim period of three (3) months beyond validity period as per contract. The BG shall be submitted to the CE, IT&C Cell, 3rd Floor, 'D' Block, Bidyut Bhawan, WBSEDCL.

GCC.4.1.2. The bank guarantee shall provide for payment of any damage due to WBSEDCL, for failure of you to meet his obligations under the contract.

GCC.4.1.3. Performance Guarantee is intended to secure the satisfactory performance by you of the entire contract. However, it is to be construed as limiting the damages under contract period. No interest will be payable on Performance B.G.

GCC.5. **Arbitration & Legal Jurisdiction:**

GCC.5.1. During execution of this contract, if any dispute arises thereby, shall be settled amicably between WBSEDCL and yourself to the extent possible.

GCC.5.2. All disputes or differences in respect of which the decision if any has not become final shall be settled by arbitration in accordance with the provisions of the Arbitration and Conciliation Act – 1996 or any statutory modification thereof. The venue of Arbitration shall be Kolkata only.

GCC.5.3. The necessary legal affairs and / or court case shall be exclusively within the jurisdiction of Calcutta High Court only.

GCC.6. **Quantity:** The provisional quantities of various items are shown in the Price Schedules. WBSEDCL, during execution of the contract, reserves the right to increase or decrease the

quantity of goods and services up to +/-50% of the quantities shown in the price schedule without any change in unit price or other terms and conditions at the time of placement/during execution of the order.

GCC.7. Period of Contract:

Initial Period of contract shall be 2 years 6 months from the date of placement of Order which includes 6 months execution period. After 2 years and 6 months, WBSEDCL may increase the period of contract at (3) three sequels of (2) two years each up to another (6) six years depending upon the each previous (2) two years performance at the same rate and terms and conditions of the Letter of Award (LOA) placed on you which shall be accepted without imposing any conditions.

GCC.8. Taxes, Duties and other levies:

You shall be responsible for the taxes that may be levied on contractor's persons or on earnings of any of your employees and shall hold the employer's indemnified and harmless against any claims that may be made against the employer. WBSEDCL does not take any responsibility whatsoever regarding taxes under "Income Tax Act" for you or your personnel. If it is obligatory under the provisions under "Income Tax Act", deduction of Income Tax at source shall be made by you.

GCC.9. Execution Period:

Within a period of 6 months from the date of placement of referred LOI, you shall complete the MPLS-VPN Connectivity as per detailed scope of work indicated in the LOA. The entire work need to be completed on turnkey basis.

If you can not complete the total execution work within the stipulated execution period, then WBSEDCL shall have every right to place the order for execution of the unfinished portion of the work to the party quoted the second lowest value for the job with same terms and condition of the LOA placed on you.

GCC.10. Liquidated damage:

The timely completion of entire project including handing over the sites to WBSEDCL as per "Execution Period" is the basic consideration and essence of the contract and WBSEDCL reserves the right to repudiate the contract if you fail to complete the work within stipulated period for completion. However, the ordering authority may at his discretion waive this condition with imposition of liquidated damage indicated herein below.

- GCC.10.1. Delay in implementation of the project for managed MPLS-VPN Network:** If you fail to complete the work within the completion time as stated in the Clause of "Execution Period" (Clause GCC.11), a L.D. at the rate of ½% of the value of unfinished portion per week of delay or part thereof subject to a maximum of 10% of value of the unfinished portion of the scheme shall be imposed. As it is a turn-key project & mere provision of links cannot be construed as completion of work, hence for the purpose of this clause, work will be treated as finished for a particular location only when successful commissioning, trial run and handover-takeover of the MPLS-VPN system is complete. Otherwise the total value of material and work for that particular location will be treated as unfinished and L.D. will be calculated on the total value of that unfinished portion of that location. L.D. if applicable will be deducted only from bills on installation & commissioning (Terms of payment).

GCC.10.2. Liquidated Damage, if applicable during warranty period, will be recovered from any outstanding bills / bank guarantee lying / to be lying with WBSEDCL.

GCC.11. Force Majeure :

GCC.11.1. You shall be under no liability if you are prevented from carrying out any of your obligations by reason of war, invasion, and act of foreign country, hostilities, riots, civil commotion, mutiny, accident, earthquake, fires, floods, orders and / or restrictions and other cause beyond the reasonable control of you. However, such force majeure circumstances are to be intimated immediately and to be established subsequently with proper documents / proofs to the entire satisfaction of WBSEDCL.

GCC.11.2. WBSEDCL will not take any additional liability towards enhanced taxes, duties and price variation due to force majeure condition.

GCC.12. **Risk Purchase / Performance:** Adherence to time schedules mentioned in the foregoing clauses shall be deemed as the essence of contract and if you fail to deliver within the periods prescribed for such work in the rate contract order, WBSEDCL shall be entitled to execute the job through the best and nearest substitute available elsewhere on the account and at the risk of yours or to cancel the contract and the you shall be liable to compensate for any loss or damage which WBSEDCL may sustain by reason of such failure on the part of the Contracting Agency.

GCC.13. Technical Parameter Clause for Network :

GCC.13.1. You shall provide MPLS-VPN links as per the technical parameters described below.

SN	Name of the Parameter	Details
1	Uptime	Up to 99.5%
2	Latency	≤ 80 ms
3	Packet loss	≤ 1%
4	Basis of Calculation	Per Month
5	Service Window	24 X 7 (Except national Holidays)
7	Rebate for downtime	For every 05 hours in excess of 11 hours in a quarter a rebate of 0.5% of the rental of the circuit per quarter.
8	Rebate for latency / Packet loss.	If NSP (Network Service Provider) fails to meet the Technical Parameters for Latency / Packet loss for a continuous period of 30 minutes, then the customer's account shall be credited on prorata basis by a credit equal to 5 times the outage period.
9	Upper Limit of rebate	Rental for that location.

GCC.14. Submission of bills for payment :

GCC.14.1. All the bills in triplicate with relevant papers, documents are to be submitted to the Controlling Officer at IT & C Cell for payment.

GCC.15. Terms of Payment:

GCC.15.1. For Network :-

100% yearly rent including 100% tax and duties will be paid in advance against 110% of the equivalent amount of Bank Guarantee with validity period one (1) year and six (6) months and claim period of three (3) months beyond validity period. Advance payment will be adjusted against normal yearly rent bills to be submitted by you along with NMS generated downtime as well as SLA specific report against each and individual link for the year after completion of one year supported by commissioning certificate of MPLS-VPN link signed by the site officers and counter signed by the nodal, supervising and controlling officers.

If you fail to submit normal rent bills of MPLS-VPN links prior to two months of expiry of BG in consideration to the validity and claim period of the BG, the said BG shall be invoked by WBSEDCL without further reference.

BG for advance payment will be returned after payment of normal rent bills for the said period.

Above procedure will be followed for payment of subsequent year's bill.

GCC.16. Way Leave (ROW) :

You shall arrange the necessary way leave for installation of any equipment/antenna etc. in the offices located at hired premises. It shall be the responsibility of you to arrange way leave/ROW (Right of Way) for installation of their equipment/antenna in connection to establishment of the links. WBSEDCL shall neither negotiate with the owner of land/hired premises nor incur any additional charges toward obtaining way leave (ROW) permission whatsoever. However WBSEDCL shall provide necessary help toward acquiring permission from the owner of the land/rented house as and when required.

GCC.17. Change of Location after commissioning of Link :

The MPLS-VPN links which are to be established at different site offices may liable to shift in the neighboring locations within the town itself due to change of address of those locations during the course of the time. Such shifting shall be made by you as and when required during the contract period as per the rate described against the shifting of locations at the price bid (Annexure – IV).

GCC.18. Communication: The vendor, for communicating with WBSEDCL, for this job may use the following modes.

FAX- (033) 2337 2427.

ANNEXURE - III

A. New Router Specification		
Quantity : 108 Nos		
Sl No	Feature	Specifications
1	Architecture	Should have support for Data, Voice, Video, Security and mobility services.
2		Should be chassis based & modular architecture with multicore processor for scalability and should be a single box configuration for ease of management.
3		Should have redundant power supply.
4		Should have support for embedded hardware based Encryption card accelerator
5		Should have for complete Firewall, IPS features.
6		Should have 1Gb RAM should be upgradeable to 2Gb
7		Should have 256Mb flash and should be upgradeable to 2Gb
8		Should have four free slots for future expansion.
9		Should have integrated USB port to provide console, storage and secure token capabilities
10		Chassis should be 19" rack mountable type.
11		Should be supplied with necessary power cards, data cables, connectors, bracket accessories, and other appropriate accessories.
12	Performance	Shall support performance of 900 Kpps for 64 Byte packet.
13		Shall support variety of interfaces like V.35 Sync Serial (64Kbps, 2 Mbps), G.703, Ch-E1, 3G Interfaces for future uplink purposes, Ethernet Interfaces – 1Gbps, 10/100 Mbps, 802.3af, ISDN PRI, BRI, ATM, Digital/Analog dialup and remote access modules,
14		Shall support voice interface like FXS, FXO, E&M, T1/E1
15		Shall support DSL connectivity using ADSL, G.SHDSL
16		Shall support integrated capability to host multiple application like Unified Communication, Video Surveillance, Storage System, Network services, or customer application, etc using different processor, storage, memory to optimize and consolidate infrastructure

17		Shall support other IP Services like GRE tunneling, ACLs, IPSEC VPNs, Firewalling, NAT services.
18		Shall support Voice traffic optimization with features like WRED, H-QoS, RSVP, performance routing or equivalent and network based application routing or equivalent.
19		Shall support onboard voice and video capable digital signal processor
20		Shall support per port PoE power monitoring
21		Shall support management of power to module slots, to reduce energy consumption
22	High Availability	Shall support redundant Gigabit Ethernet connection to LAN.
23		Shall support Redundant Power supply (RPS - Required from Day 1).
24		Shall support fast reboot for minimum network downtime.
25		Shall support Non-Stop forwarding for fast re-convergence of routing protocols
26		Shall support boot options like booting from TFTP/FTP server, Network node and Flash Memory
27		Shall support multiple storage of multiple images and configurations
28		Shall support link aggregation using LACP as per IEEE 802.3ad
29		Shall support VRRP or equivalent
30	Protocol Support	Should support Routing protocols like IS-IS, RIP v1 & RIP v2, OSPF ver2, OSPF on demand, BGP4, BGP Route-Reflector
31		Should support Multicast routing protocols IGMPv3, PIM-SM, PIM-SS, DVMRP, IPv4 to IPv6 Multicast, BFD, IEEE802.3ah, IEEE802.1ag
32		Should have DHCPv6, IPv6 QoS, RIPng, OSPFv3
33		Shall support MPLS, Layer2 and Layer3 VPN, L2TPv3
34		Support for Load balancing Protocol.
35		Support unequal cost link load sharing to better utilize the alternate paths
36		Configuration Roll Back to recover the mis-configured router to last good configuration
37	Encapsulation Support	Shall support Encapsulation like Ethernet, 802.1q, PPP, MLPPP, FR, MLFR, HDLC, Serial (RS232, RS449, X.21, V.35, EIA530), PPPoE and ATM
38		Support Standard ACL, Extended ACL, ACL that can match arbitrary bits of packet bits of a packet at an arbitrary depth in the packet header and payload

39	Security Features	IPSEC Site-to-Site and Remote Access VPNs. Any Office to Any other office, dynamic establishment of VPNs so that the configuration & management of IPSEC VPNs becomes easier, Tunnel-less VPN connectivity and future support for SSL VPN.
40		Support IPSEC VPNs should be able to carry data, voice, video
41		Support Firewall feature set supporting Stateful, transparent firewall. IPS feature set with predefined and customizable signatures.
42		MD-5 route authentication for RIP, OSPF and BGP
43		Shall support multi-level of access
44		Shall support SNMPv3 authentication, SSHv2
45		AAA support using Radius.
46		Shall support CHAP authentication for P-to-P links
47		Shall support DoS prevention through TCP Intercept & DDoS protection
48		Shall support IP Access list to limit Telnet and SNMP access to router
49		Shall support Multiple privilege level authentications for console and telnet access through Local database or through an external AAA Server.
50		Time based & Dynamic ACLs for controlled forwarding based on time of day for offices
51		IEEE 802.1x support for MAC address authentication
52		Router OS should be at least EAL4 (Common Criteria) Certified.
53	Multi-media support (Only Future support by software upgradation in future)	Shall support Voice capabilities: Codec support for G.711 and G.729
54		Shall support Voice capabilities: Should support the capability to integrate with PBXs using E1 connectivity.
55		Shall support H.323, SIP, MGCP
56		Shall support QSIG, E1 R2 and several CAS signaling
57		Should have support for in-built voice call processing in the event of WAN link failure to central call processing Engine capability for IP phones
58		Shall support bandwidth optimization features like Voice Activity Detection, Silence Suppression, Echo cancellation
59		Should not consume more than 14-15Kbps of bandwidth (including overheads) for a single voice over IP call

60	Debug, alarms & Diagnostics	Support for monitoring of Traffic flows for Network planning and Security purposes
61		Trace-route, Ping and extended Ping
62		Should support extensive support for SLA monitoring for metrics like delay, latency, jitter, packet loss, RTP-Based VoIP traffic and should support the capability for measurement of the call setup time using H.323/SIP signaling protocol over IP network.
63		Shall support embedded event manager that enables automation of many network management tasks and directs the operation of router OS to increase availability, collect information, and notify external systems or personnel about critical events
64	Accounting:	The router should have following accounting features: (i) Packet & Byte Counts (ii) Start Time Stamp & End Time Stamps.
65		Network Time Protocol
66		Input & Output interface ports.
67		Type of service, TCP Flags & Protocol
68		Source & Destination IP addresses
69		Source & Destination TCP/UDP ports
70	Management	Shall have support for Web, GUI based management, CLI, Telnet and SNMPv3
71		Shall support Secure Shell for secure connectivity.
72		Embedded RMON support for four groups – history, statistics, alarms and events
73		Should have to support Out of band management through Console and an external modem for remote management.
74		Event and System logging: Event and system history logging functions shall be available. The Router shall generate system alarms on events. Facility to put selective logging of events onto a separate hardware here the analysis of log shall be available.
75		Pre-planned scheduled Reboot Facility: The Router shall support the preplanned timed reboot to upgrade their hardware to a new software feature and plan the rebooting as an off-peak time
76	Interface Requirements	4 x Gigabit Ethernet Interfaces (Routed).
77		2 x 2Mbps interfaces with necessary cables.
78	Racks as Accessories	9U 600W*600D
79		Side Doors with lock and key, wall mount & single Section
80		One Fan at top of the Rack
81		1 PDU - 5 point 5/15 Amp
82		Input Cable 15 Amp. 3 mtr. Long

83		Two Metal Treay
84		1 Pack Screws for mounting
85	Cables as accessories	v.35 Cable
86		Ethernet Cables
87		Control Cables
88		Power Cables

Dear Sir / Madam,

With Reference to above, WBSEDCL is pleased to place this Letter of Award (LOA) on you for providing Internet Lease Line connection for Corporate Office & wifi hotspot at 7th floor Vidyut Bhavan of WBSEDCL as per Scope of Work, Terms and Conditions detailed below.

SW.1. Scope of Work: The project shall be on turnkey basis. To provide Secure Internet access based on Unified Threat Management (UTM) system at gateway level through 10 Mbps 1:1 Internet Lease Line at corporate office Vidyut Bhavan. The end users will access the service over Ethernet and wifi (wireless LAN).

The project shall be carried out in the following manner:-

SW.1.1. Internet connectivity at Corporate Office:

SW.1.1.1. Internet connectivity at the corporate office is to be done through 10 mbps 1:1 leased internet connection.

SW.1.1.2. The lease line should be of Fiber optic with ring Topology / RF as LastMile with redundancy.

SW.1.1.3. Bidder will provide 6 (six) usable static IP .

SW.1.1.4. Successful Bidder should ensure that local loop provisioning does not violate regulations as laid by

Government of India / TRAI in respect of such links / networks.

SW.1.1.5. Successful bidder shall arrange the necessary way leave /ROW (Right of Way) in connection to the establishment of way of the link. WBSEDCL shall neither negotiate nor incur any additional charges towards obtaining way leave (ROW) permissions whatsoever.

SW.1.1.6. Bidders should provide all necessary equipment#s for connectivity.

SW.1.1.7. The solution which will be provided shall be done with minimum changes at users end and prevent complete (total) information leakage.

SW.1.2. Wireless Zone

SW.1.2.1 The 7th Floor of Vidyut Bhavan will be Wifi zone using wireless Lan 802.11 a/b/g/n/ac over 2.4 Ghz and 5 Ghz band.

SW.1.2.2 Repeater to ensure seamless roaming in the same floor.

SW.1.2.3 Power management to ensure that the signal is confined only to the 7th floor.

SW.1.2.4 Access control and wireless encryption to be ensured.

SW.1.2.5 The wan side of the wireless access point and repeater will be via UTM.

SW.1.2.6 Scalable Architecture in terms of Wireless coverage area, so that more access points can be added in future.

SW.1.2.7 Heat map analysis to identify fringes with weak/no signal and take appropriate measure to resolve it.

SW.1.3. Requirements of to be fulfilled UTM :

SW.1.3.1. Security Objectives:

a) Protection against advanced and current generation threats like Advance Persistent Threats

b) Compliance to various Framework/ Global Standards like ISO 27001.

c) Scalable Architecture in terms of adding security

controls as & when required as per business criticality.

SW.1.3.2. Network based filtering at both transport and application layer and prevent:

- a) Cross Site Scripting (XSS).
- b) Web2 vulnerabilities.
- c) Injection Flaws.
- d) Malicious File Execution (includes Applets, ActiveX component, compressed files, JavaScript, script, flash, images etc).
- e) Content Spoofing, Cookie Manipulation.
- f) Denial of Service.
- g) Encoding Attacks.
- h) Format String Attack, Meta-Character Injection
- i) HTTP Response Smuggling
- j) Phishing
- k) Session Hi-Jacking/Fixation
- l) Protection from Bots.

SW.1.3.3. Protect against :

- a) Exploits and 0 day attacks to be patched within 48 hours of their detection.

~~b) Backdoor/Rat.~~

- c) Reverse Connect back.
- d) IP fragmentation and malformed packet.
- e) Eavesdropping.

SW.1.3.4. Provision For on demand:

- a) Data Quota refilling.
- b) Caching of frequently accessed objects to save most of bandwidth.
- c) Whitelisting /Blacklisting of resources using rule sets.
- d) Port forwarding.
- e) DMZ.
- f) Custom bandwidth shaping.
- g) Port Triggering.
- h) Content filtering of custom MIME.

SW.1.3.5. Firewall Features:

- a) Should be able to work on Layer 3,4, 5,6 & 7 of OSI model work as Packet filtering firewalls, Stateful inspection firewalls and Application proxy firewalls.
- b) There should be provision for creation of multiple custom rule sets that can be chained and inherited.
- c) Rules should be based on source/destination IP, source/destination Port TCP/UDP and ingress/egress filtering.
- d) Filter according to user authentication.
- e) Signature based blocking in Application firewall to block viruses (malware), or attempts to exploit known

- logical flaws in client software.
- f) Traffic rate limit / Qos /BW Shaping
- g) Add-on modules and upgrade patches.
- h) Intrusion Prevention System
- i) Filter according to day of time.

SW.1.3.6. Non Firewall features:

- a) User and Group based policy creation using different rule set of firewall.
- b) IPS/IDS.
- c) Antivirus , Anti-malware, Anti-Adware

SW.1.3.7. Reporting and Management: The reports should obey the laws identity, integrity, Availability, Authenticity and Non-repudiation and following features:

- a) Multiple levels of management users for reporting and policy creation.
- b) Flexible report generation based on rule sets.
- c) Audit Logs.
- d) Bandwidth accounting.
- e) Threat logs (Malware,Dos, IPS)
- f) System and other sensor live load (system health) and historical logs.
- g) Separate Management port (Ethernet) for configuration.
- h) Current device configuration report.
- i) Current active users and live requesting URL (sniffer).
- j) Trend logs on rule set.
- k) Reports should be display able as graphs as well as exportable csv/spreadsheet/pdf.
- l) Configuration /Settings change logs with user and IP address.
- m) Report based on keywords.
- n) The report should be available for certain span of time.
- o) User authorization logs with ip address and changes made or logged in time.
- p) All logs should have timestamp of generation time.

SW.1.4. UTM Performance Parameters :

- a) Firewall production throughput (with real-world traffic, a typical rule-base size, NAT and logging enabled and the most secure threat prevention protection controls including anti malware, web security, antibot, app control) should be a min of 5 Gbps. OEM validation certificate required.
- b) IPS production throughput (with real-world traffic, a typical rule-base size, NAT and logging enabled and the most secure threat prevention protection controls including anti malware, web security, antibot, app control) should be a min of 1 Gbps
- c) Connections per second # 50000
- d) Concurrent sessions # 3000000.
- e) Redundant Hot-swap power supply
